Prose (Q. Nos. 26 to 30)

There have been immense advances in technology in most aspects of people's lives. especially in the field of education. Nowadays. an increasing number of students rely on computers for their knowledge. Moreover. computers for their studies quicker than they did in a traditional classroom. In the same classroom. Students have different intellectual capacities. Therefore, some would be tied to a slow advance in their studies because of others inability to move at a faster pace. So. Students could progress from teachers. As a result, some people believe the role of teachers will now become less and less important in the future.

However, the presence of a teacher is essential for students because the human contact influences them in a positive way. Students realize that they are not dealing with a machine but with a human being who deserves attention and respect. They also learn importance of studying in a group. Which helps then improve their social skills. Moreover, teachers are required in the learning process, because they acknowledge students weaknesses and help them to solve their problems on an individual basis.
